ASSESSMENT TASKS AND RUBRICS

The University of the West Indies (St. Augustine)
Faculty of Humanities and Education
School of Education
Postgraduate Diploma in Education Programme 2025-2026

(EDLG 5100; EDIT 5002; EDMA 5700; EDFL 5400; EDSC 5800; EDSS 5710; EDTV 5000; EDVA 5300)

ASSESSMENT PORTFOLIO

Pedagogy as Process supports the practitioner in developing praxis, which is linking theory and practice. The course is examined through a professional portfolio, worth 100% of course marks. The items you include in the portfolio will be in response to the tasks outlined below. Since the portfolio is the only assessment for this course, it contains a wide array of items, which is intended to capture the breadth of course content. There are traditional portfolio items, such as descriptions and reports, as well as more innovative items, such as digital media files.

Your *Pedagogy* tutor/s will provide guidance and opportunities for you to ask questions on the captions and tasks within the sections below. However, you are **not required** to send draft sections of the portfolio to your tutor for feedback as no feedback will be provided for this assignment.

SUBMISSION FORMAT

The portfolio is to be submitted in electronic format via myelearning. It may be in the form of a secure digital space, such as a website or blog, as approved by your course tutor. Please use the template on page 104 to insert the hyperlink(s) for your portfolio documents.

Remember to ensure that tutors have access to your portfolio (all pages) without requiring access permissions for viewing.

Please note that your assignment submitted to myelearning is the final document and there shall be no changes to the website or electronic document following submission.

COMPONENTS OF THE PORTFOLIO

The portfolio comprises three components: (i) Table of Contents, (ii) Captions and (iii) Portfolio Sections.

I. TABLE OF CONTENTS

A table of contents must be included. It should be accurate and facilitate easy reference to items included in the portfolio. (Include functional hyperlinks to different sections.)

II. CAPTIONS (18 marks)

Captions serve an important function in the portfolio. Captions trace your journey of growth and development as a teacher/administrator over the course of the programme. They demonstrate your development as a reflective practitioner and lifelong learner in your specific field or discipline and reflect your ability to integrate theory and practice.

There are **5 captions** throughout this portfolio, **one each for sections B-F**. The caption for Section B is worth 6 marks and must not exceed 200 words. Alternatively, it may be a 2-minute audio/visual clip. The captions for sections C-F are worth 3 marks each and must not exceed 100 words. Alternatively, each may be a one-minute audio/visual clip.

III. PORTFOLIO SECTIONS

The portfolio consists of six sections, A-F, which are presented below followed by a detailed rubric. Upon completing each section, ensure that a word count is included where required.

PORTFOLIO SECTIONS A-F

As you read the tasks in each section below, refer to the associated sections within the scoring rubric.

A – Introduction (8 marks)

This section of the portfolio contains the following items: Purpose statement; Letter to Self and a statement of initial philosophy about teaching.

- The purpose statement informs readers about your intentions in putting together the portfolio. **[250 words max]**
- The "Letter to Self" says what led you to become a teacher, why you chose this programme of study and what you hope to achieve from this programme. **[500 words max]**
- The statement of initial philosophy about teaching communicates your beliefs, values, and conceptions about teaching. Use a metaphor to describe your distinctive approach to pedagogy. **[500 words max]**

There are two alternatives of Section B (Unit and Lesson Planning).
Alternative 2 is assigned to the 'Teaching of English Language Arts' students ONLY.
All other disciplines are assigned to Alternative 1.

B - Unit and Lesson Planning (Alternative 1) (52 marks)

Over the course of the year, you are expected to demonstrate growth in the ability to plan units and lessons related to curriculum-based learning outcomes. The following are the assignments designed for you to demonstrate this proficiency. Please note that the instructional unit is a single section within the portfolio and it (the unit) comprises various components. These components have been underlined in the rubric that follows. The components are unit goals, unit objectives, student engagement, learning

strategies, pedagogical approaches, assessment plan, resources, lessons, and reflection. You can think of each component as a separate sub-section of the unit.

With reference to a MAJOR topic in your subject specialization, design a sample unit of instruction, which should include a conceptual map and comprise outlines of at least five lessons. The unit must reflect attention to key aspects identified and described in your discipline's pedagogy sessions. Use the unit to carry out the following tasks:

NB. The unit chosen here must not replicate the unit you create for your action research project (EDRS 5450), or one that was marked for your Practicum.

(a) Task analysis: Based on the session/s in which your tutor demonstrates how task analysis can be done in your discipline, a task analysis of a major performance task associated with the unit topic, OR where necessary, do a task analysis of the whole topic. The purpose of the task analysis is for you to identify (a) the component skills required for performing a high order task and (b) the sequence in which skills have to be taught and developed. [**500 words max**]

(b) Choose a lesson from the unit,

- identify the instructional objectives, presenting them in a numbered list.
- classify the instructional objectives by levels and domains
- match these instructional objectives to associated unit goals and objectives.

This assignment does not require you to plan an entire lesson.

(c) Create **two** complete lesson plans from the unit, demonstrating the use of one or more **clearly identified** pedagogical strategies. (Please name the strategy used.) **The plans MUST NOT use the same strategy.**

(d) Written response to readings and/or activities on instructional scaffolding. Your tutor will assign reading/s on instructional scaffolding, and/or engage you in activities related to instructional scaffolding. You will be required to: (i) define the term instructional scaffolding, (ii) explain the component parts of the process involved in providing contingent instructional scaffolding, (iii) construct a flow chart to show how you would use a specific set of instructional scaffolds to teach a named major concept/skill and (iv) explain the process depicted in the flow chart. [**500 words max, excluding flowchart**]

B - Unit and Lesson Planning (Alternative 2 for Teaching of English Language Arts students ONLY) (52 marks; obtained from 0.4643 of 112, which is the actual section total)

Over the course of the year, you are expected to demonstrate growth in the ability to plan units and lessons related to curriculum-based learning outcomes. The following two assignments are designed for you to demonstrate this proficiency. **NB. The unit chosen here must not replicate the unit you create for your action research project (EDRS 5450), or one that was marked for your Practicum.**

Please note that the unit plan you create for this section will be used to develop the performance assessment in Section D.

Return to TOC

Note: This is NOT a group assignment even though persons may have chosen the same topic.

1. Task analysis: Based on the session/s in which your tutor demonstrates how task analysis can be done in your discipline, do a task analysis of a major performance task associated with the unit topic, OR where necessary, do a task analysis of the whole topic. The purpose of the task analysis is for you to identify (a) the component skills required for performing a high order task and (b) the sequence in which skills have to be taught and developed. [**500 words max**]

2. Design of Instructional unit. Note that the instructional unit is a single section within the portfolio and it (the unit) comprises various subsections. These have been underlined in the rubric that follows. The components are unit goals, unit objectives, student engagement, learning strategies, pedagogical approaches, assessment plan, resources, lessons, and reflection.

Major objective of the unit

You should be able to:

Create an INTEGRATED unit of work on a specific English topic.

Corollary objectives

1. Rationalize the purpose of the unit
2. Set unit and lesson objectives
3. Create performance tasks
4. Identify supports (scaffolds) students will require for accomplishing the tasks
5. Identify suitable resources required for presenting the main ideas in the unit
6. Create at least five lessons for the unit.
7. Create an assessment rubric for measuring performance on the task/s.

Topics

A. Expanding students' receptive vocabulary (vocabulary for comprehending texts).
B. Expanding students' productive vocabulary (vocabulary for expression).
C. Teaching writing (summary, argumentative, persuasive, narrative, descriptive, poetry, etc). Make sure your strategy is based on a published theory.
D. Teaching reading comprehension. Unit of instruction **MUST** include lessons on sentence parsing, anaphora, and making inferences.
E. Teaching about how text cohere in English using grammatical and lexical devices, **except 'reference' and 'conjunction'.**
F. Teaching about text types (description; problem-solution; cause-effect, etc.).
G. Teaching students HOW to assess the use of registers, dialects, ranges of formality and other aspects of language in various types of interactive settings (Module 2: Language and Community, p.12).
H. Teaching students how communication in specific contexts may be maximized through use of different forms, media, channels and technologies of communication (Module 3: Speaking and Writing, p. 22).
I. Teaching students a specific literary genre.
J. Teaching grammar.

Return to TOC

K. Developing oracy through the English 'B' curriculum.
L. A topic of your choice, subject to approval of the course lecturers.

Guidelines

- Choose ONE topic from the list, A-L, and conduct research on it to familiarize yourself with current thinking about it.
- Do not choose a topic that you will be researching for the action research project.
- Research your topic thoroughly enough that you understand what is to be taught, what kinds of problems students are likely to face when you create tasks based on the topic, and what kinds of supports you will need to provide. Be knowledgeable enough about the topic that you can understand informed critique of your unit.

Unit details

a) The unit comprises five to eight lessons, depending on the complexity of the concept. Lessons can be of any duration, depending on your school context. The unit should demonstrate your ability to integrate teaching of related constructs, so that more than one language or literature skill is targeted. For example, a unit on metaphor can integrate speaking and writing objectives.
b) The unit comprises the following sections:
    - **Introduction**: provides an overview of the topic (not the unit), which explains the concept or skill, especially what **CRITICAL FEATURES** of the concept or skill the unit will target.
    - **Rationale**: provides a rationale for teaching the unit (why is it important to teach it?)
    - Unit goals
    - Unit objectives
    - Student engagement
    - Learning strategies
    - Pedagogical approaches
    - Assessment plan
    - Resources (list of resources AND an example of each)
    - Complete lesson plans with resources to be used
    - Reflection

See rubric which follows for details about each of these components.

C - Technology Integration (16 marks)

The focus of this section is on how you employ technology for optimizing teaching and learning.

1. Choose ANY lesson you taught this year which demonstrates the use of any **two** technology tools:
    (a) Append your lesson plan and all supporting resources, including the url/link to any selected media.
    (b) justify your choice of these tools for the lesson selected.
2. Create an audio/video media presentation (**5-8 minutes duration**) to capture your reflection on:
    (a) the degree of ease or challenge you experienced in incorporating technology into the lesson,
    (b) how you propose to sustain use of technology and overcome challenges that may stand in the way of your using it, and

Return to TOC

(c) reflect on how your experience(s) of integrating technology has influenced your understanding of teaching and learning.

The students learn skills with a variety of tools as options as seen below:

Skills	**Available tools**
Concept Mapping	Bubbl.us, MindMeister, Coggle
Audio in education/podcasting	Audacity
Video Editing	Windows Video editor, Clipchamp, Openshot
Storyboarding/Comics	StoryboardThat
Video conferencing	Zoom, MS Teams
Screen Recording	Screen cast-o-matic, Zoom
Collaborative tools	Google docs, Padlet
Digital assessments	Kahoot, Google forms, Answer garden, Formative, Flipgrid
Game creation	Kahoot, Puzzle maker, EduCandy
Animations	Powtoon
E-books	Book creator, Genially
Virtual/mixed/augmented reality	Merge cube, Expeditions, Curiscope (based on subject area)
Creating Websites	Weebly, Google sites, Wix

D - Growth in Assessment Competence (24 marks)

In this section of the portfolio, you will demonstrate the skills you have acquired in designing and using varied assessment approaches. **Question 2 in this section requires that you use the unit created in section B.**

1. (a) Choose and explain any **TWO standards of classroom assessment or test development**, referencing supporting literature. [**500 words max**]

   (b) **Critique an assessment which you have already created,** such as an end of term test, by,

   (i) assessing the extent to which it conforms or does not conform to the two standards discussed in (a); and

   (ii) offering 2 suggestions for improvement of the assessment so that it aligns with the standards discussed OR 2 ways in which it can be modified for a different, specified context. Append the test that you have critiqued. [**700 words max**]

2. For the unit created for **section B** of this portfolio, and bearing in mind the important standards of assessment,
   (a) Describe at least 3 criteria which distinguish performance assessment from traditional assessment. [**300 words max**]
   (b) Create:
      (i) a performance assessment that could be used for evaluating students' understanding of an aspect of the concept(s)/topic(s)/idea(s) from the unit.
      (ii) a rubric that assesses the performance assessment in (i).

Return to TOC

(c) State what you would want your students to understand about the topic and how the performance assessment task and rubric may assist you in meeting these goals. **[250 words max]**

(d) Discuss two benefits and two challenges that may arise from administering the rubric and performance assessment. **[450 words max]**

Classroom Assessment Standards include:

1. Assessment Purpose
2. Learning Expectations
3. Assessment Design
4. Student Engagement in Assessment
5. Assessment Preparation
6. Informed Students and Parents
7. Analysis of Student Performance
8. Effective Feedback
9. Instructional Follow up
10. Grades and Summary Comments
11. Reporting
12. Cultural and Linguistic Diversity
13. Exceptionality and Special Education
14. Unbiased and Fair Assessment
15. Reliability and Validity
16. Reflection

(Klinger, D. A., McDivitt, P. J., Howard, B. B., Munoz, M. A., Roger, W. T., & Wylie, E. C. (2015). Classroom assessment standards for preK-12 teachers: Joint committee on standards for educational evaluation [Kindle Edition]. *Retrieved from Amazon. com*.)

E – Transformations (16 marks)

This section of the portfolio assesses the transformations that have occurred /or are occurring within you, as well as those you were able to make/are attempting to make/are experimenting with in your community of practice. There are two tasks in this section:

1. **Curriculum Integration.** Write a report, which provides details on how you collaborated with another colleague(s) in one or more departments, to teach a lesson using an integrated approach to curriculum delivery, for a specific class level at your school. Your approach must be based on a selected curriculum integration model, with supporting literature. Evidence of your collaboration on curriculum integration, such as one or more pictures and/or audio/video clips, lesson plans, etc. must be provided. [**1000 words max**]

   NB. Please note that lesson plan/s and resources must align with the selected curriculum model to determine what will be included in the portfolio

2. **Agent of Change**.
   (a) Analyze what motivates you to be a change agent.
   (b) Describe the efforts you are making and/or can make to influence teaching and learning at your school using what you have learnt so far in the Postgraduate Diploma in Education programme. [**400-450 words**].

F - Reflective Summary (8 marks)

(a) Describe the feelings you experienced as you went through the process of developing your portfolio.
(b) Critically evaluate the impact the course has had on your understanding of your discipline or what made the greatest impact on your understanding of your discipline.
(c) Give some projection of your continued professional development, especially with respect to enhancement of pedagogical skills.
(d) Reflect on how your initial philosophy of education has been affected by your participation in the Pedagogy as Process course.

You can use a variety of modalities, such as song, drama, video, or text to express your changing philosophy and growth. [**700 words max**]

Portfolio submission date: October 18, 2026 @ 11:55pm, via myeLearning

PEDAGOGY AS PROCESS PORTFOLIO RUBRIC – EDSS 5710, EDMA 5700, EDSC 5800, EDIT 5002, EDFL 5400, EDLG 5100, EDTV 5000, EDVA 5300

A – INTRODUCTION				
Features/ Marks	**Excellent 8-7**	**Good 6-5**	**Adequate 4-3**	**Poor 2-0**
Introductory items include: - Purpose Statement - Letter to Self - My initial philosophy of teaching (such as values, beliefs, conceptions of teaching as metaphor or narrative)	- ALL items present: Purpose statement, Letter to Self, and beliefs about teaching - ALL items are excellently done capturing fully the criteria in the task description. - Letter is written using a proper letter format: date, address, salutation, close, correct tense.	- ALL items present: Purpose statement, Letter to Self, and beliefs about teaching - ALL items satisfactorily capture the criteria in the task description. - Letter is written using a proper letter format: date, address, salutation, close, correct tense.	- ALL items present: Purpose statement, Letter to Self, and beliefs about teaching - ALL items minimally capture the criteria in the task description. - Letter is written using some aspects of a proper letter format: date, address, salutation, close, correct tense.	- At least ONE item is missing and the others are generally unsatisfactory - Letter is not written using a proper letter format.

Return to TOC

B – UNIT AND LESSON PLANNING (Alternative 1)				
Caption B should: • State the focus of the unit and the associated tasks. • Explain the significance of the unit and associated tasks for student learning. **[No more than 200 words or a 2-min audio/visual clip; 6 marks]**		**Excellent** **6-5** Reflects all criteria and are clearly expressed	**Good** **4-3** Reflects all criteria but not always clearly expressed or reflects some criteria well	**Poor** **2-0** Criteria are poorly met and/or missing
Features/ Marks	**Excellent** **16-13**	**Good** **12-9**	**Adequate** **8-5**	**Poor** **4-0**
1. Unit of instruction	The unit: - Has excellent congruence between unit components - Shows the teacher has a superior grasp of theme/topic/issue to be explored - Has a clear statement of learner needs in relation to the unit goal(s) - Has an accurate conceptual map - Has a sequential outline of lessons, which is proposed as the content for the unit. - Illustrates excellent knowledge of the curriculum - Illustrates a variety of models and strategies	The unit: - Has high congruence between unit components - Shows the teacher has strong grasp of theme/topic/issue to be explored - Has a clear statement of learner needs in relation to the unit goal(s) - Has an accurate conceptual map - Has a sequential outline of lessons, which is proposed as the content for the unit. - Illustrates good knowledge of the curriculum - Illustrates a variety of models and strategies	The unit: - Shows some congruence between unit components - Shows the teacher has basic grasp of theme/topic/issue to be explored - Has a clear statement of learner needs in relation to the unit goal(s) - Has a mostly accurate conceptual map - Has a generally sequential outline of lessons, which is proposed as the content for the unit. - Illustrates adequate knowledge of the curriculum - Illustrates an adequate variety of models and strategies	The unit: - Shows low congruence/poor congruence between unit components - Shows the teacher has poor grasp of theme/topic/issue to be explored - The statement of learner needs is absent or unrelated to the unit goals. - Has an inaccurate conceptual map; or, has no map - Has a poorly sequenced outline/no outline of lessons. - Illustrates poor knowledge of the curriculum - Illustrates a limited number of models and strategies

Return to TOC

Features/ Marks	Excellent 8-7	Good 6-5	Adequate 4-3	Poor 2-0
2a. Sample of instructional objectives for a lesson	The sample demonstrates: - High congruence between instructional objectives and lesson purpose, and unit goals & objectives - All objectives are 'measurable' - All objectives are meaningful - There is an excellent mix of high- and low-order objectives, as appropriate to the purpose of the lesson - Objectives are taken from each of the three domains, as appropriate to the lesson topic and/or concept being explored.	The sample demonstrates: - Relatively high congruence between instructional objectives and lesson purpose, and unit goals & objectives - Most objectives are 'measurable' - Most objectives are meaningful - There is a good mix of high and low order objectives, as appropriate to the purpose of the lesson - Objectives are taken from each of the three domains, and most are appropriate to the lesson topic and/or concept being explored.	The sample demonstrates: - Fair congruence between instructional objectives and lesson purpose, and unit goals & objectives - Most objectives are 'measurable' - Most objectives are meaningful - There is an adequate mix of high and low order objectives, as appropriate to the purpose of the lesson - Objectives are taken from each of the three domains, and fairly appropriate to the lesson topic and/or concept being explored.	The sample demonstrates: - Low or no congruence between instructional objectives and lesson purpose, and unit goals & objectives - Little or no congruence between outcomes and objectives - Objectives are not 'measurable' **OR** no instructional objectives and learning outcomes presented - Objectives are taken from only one domain; **OR** the objectives are from three domains, but inappropriate to the lesson topic and/or concept being explored.

Return to TOC

Features/ Marks	Excellent 12-10	Good 9-7	Adequate 6-4	Poor 3-0
2b. Two lesson plans demonstrating the use of named pedagogical strategies	- Two lesson plans presented and pedagogical strategies identified - Each plan shows at least one pedagogical strategy. - Plans show high congruence between learner profile, lesson purpose, instructional objectives, and strategies chosen. - All strategies chosen have been used appropriately, as determined by the lesson focus.	- Two lesson plans presented and pedagogical strategies identified - Each plan uses at least one pedagogical strategy. - Plans show good congruence between lesson purpose, instructional objectives, and strategies chosen. - Most of the strategies chosen have been used appropriately.	- Two lesson plans presented and pedagogical strategies identified - Lesson plans use at least one pedagogical strategy - Plans show moderate congruence between learner profile, lesson purpose, instructional objectives, and strategies chosen. - The strategy/strategies chosen are somewhat inappropriate for the lesson focus.	Only 1 plan presented, and it uses at least one of the pedagogical strategies with some congruence between learner profile, lesson purpose, instructional objectives, and strategies chosen; however, strategies are not used appropriately, **OR** Plans do not incorporate any strategies learnt.
2c. Instructional scaffolding	**Excellent 8-7**	**Good 6-5**	**Adequate 4-3**	**Poor 2-0**
	- Accurate explanation of instructional scaffolding with relevant citations - Accurate identification and explanation of components of scaffolding, based on lesson concept/skill to be explored - Flowchart shows a logical sequencing of scaffold and an excellent grasp of the range of	- Accurate explanation of instructional scaffolding with relevant citations - Accurate identification and explanation of components of scaffolding, based on lesson concept/ skill to be explored - Flowchart shows a mostly logical sequencing of scaffolds and a good grasp of the range of scaffolds that may be employed to	- Accurate explanation of instructional scaffolding, but lacking in relevant citations - Accurate identification and explanation of components of scaffolding, based on lesson concept/ skill to be explored - Flowchart shows an adequately logical sequencing of scaffolds and a weak sequencing of	- Inaccurate or poor explanation of instructional scaffolding - Inaccurate or poor identification and explanation of components of scaffolding, based on lesson concept/skill to be explored - Flowchart shows a illogical sequencing of scaffolds and an unclear or poor grasp of the range of scaffolds that

Return to TOC

	scaffolds that may be employed to teach the lesson concept/skill. - Excellent description of the scaffolding process represented in the flow chart	teach the lesson concept/skill. - Good description of the scaffolding process represented in the flow chart	scaffolds and an average grasp of the range of scaffolds that may be employed to teach the lesson concept/skill. - Adequate description of the scaffolding process represented in the flow chart	may be employed to teach the lesson concept/skill. - Poor description of the scaffolding process represented in the flow chart
2d. Task analysis	**Excellent** **8-7**	**Good** **6-5**	**Adequate** **4-3**	**Poor** **2-0**
	Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Strong command of content knowledge related to the task - Excellent anticipation of the prior knowledge learners will require to complete the task - Keen recognition of the sub skills required for performing the task.	Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Good working command of content knowledge related to the task - Good anticipation of the prior knowledge learners will require to complete the task - Good recognition of the sub skills required for performing the task.	Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Moderate command of content knowledge related to the task, - Fair anticipation of the prior knowledge learners will require to complete the task - Fair recognition of the sub skills required for performing the task.	Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Poor command of content knowledge related to the task - Low anticipation of the prior knowledge learners will require to complete the task - Non-recognition of the sub skills required for performing the task.

Return to TOC

B – UNIT AND LESSON PLANNING (Alternative 2)				
Caption B should: • State the focus of the unit and the associated tasks. • Explain the significance of the unit and associated tasks for student learning. **[No more than 200 words or a 1-min audio/visual clip; 6 marks]**		**Excellent** **6-5** Reflects all criteria and are clearly expressed	**Good** **4-3** Reflects all criteria but not always clearly expressed or reflects some criteria well	**Poor** **2-0** Criteria are poorly met and/or missing
Features/ Marks	**Excellent** **10-8**	**Good** **7-5**	**Adequate** **4-3**	**Poor** **2-0**
1. Task analysis	- Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Strong command of content knowledge related to the task - Excellent anticipation of the prior knowledge learners will require to complete the task - Keen recognition of the sub-skills required for performing the task.	- Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Good working command of content knowledge related to the task - Good anticipation of the prior knowledge learners will require to complete the task - Good recognition of the sub-skills required for performing the task.	- Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Moderate command of content knowledge related to the task, - Fair anticipation of the prior knowledge learners will require to complete the task - Fair recognition of the sub-skills required for performing the task.	- Analysis of the task, as illustrated in an appropriate chart/table, indicates: - Poor command of content knowledge related to the task - Low anticipation of the prior knowledge learners will require to complete the task - Non-recognition of the sub-skills required for performing the task.

Return to TOC

Features/ Marks	Excellent 8-7	Good 6-5	Adequate 4-3	Poor 2-0
2. **Design of Instructional Unit:** **Unit Goals**	- Has a clear statement of learner needs in relation to the unit goal(s) - States what relevant prior knowledge students will bring to the unit.	- Has a statement of learner needs that is closely related to the unit goal/s - States what relevant prior knowledge students will bring to the unit.	- Has a cursory statement of learner needs in relation to the unit goal/s - States what prior knowledge students will bring to the unit, but some of the information is irrelevant.	- The statement of learner needs is absent or unrelated to the unit goal/s. - Does not identify what prior knowledge students will bring to the unit, or identifies irrelevant prior knowledge.
Unit objectives	- Presents a strategic mix of high and low order objectives - Creates objectives that are measurable - Presents objectives that are very strongly aligned to the unit focus and goals	- Presents an appropriate mix of high and low order objectives - Creates objectives that are mostly measurable - Presents objectives that are closely aligned to the unit focus and goals	- Presents an appropriate mix of high and low order objectives - Creates some objectives that are not measurable - Presents objectives that are generally aligned to the unit focus and goals	- Presents mostly low order objectives - Creates objectives that are mainly not measurable - Presents objectives that are mostly unrelated to the unit focus and goals, and/or inappropriate to the stated focus and goals.
Student engagement	- Presents credible, predictable issues that are explicitly linked to teaching context and student characteristics; - Offers many appropriate and practical suggestions, with research support where available, for increasing student engagement.	- Presents credible, predictable issues, but these may not be strongly linked to teaching context and student characteristics; - Offers appropriate and practical suggestions, with research support where available, for increasing student engagement.	- Presents credible, predictable issues, but they need to be more explicitly linked to teaching context and student characteristics; - Offers some appropriate and practical suggestions, but may lack research support where available, for increasing student engagement.	- Presents poorly conceptualized or no description of possible engagement issues; inadequate or no description of proposals for increasing student engagement.

Return to TOC

Features/ Marks	Excellent 8-7	Good 6-5	Adequate 4-3	Poor 2-0
Learning Strategies	- Offers varied, practical and appropriate strategies. - Where appropriate, strategies are research based. - Strategies obtained from the internet are accurately referenced.	- Offers generally practical and appropriate strategies. - Where appropriate, strategies are research-based. - Strategies obtained from the internet are accurately referenced.	- Offers some practical and appropriate strategies. - Where appropriate, strategies are research-based. - Strategies obtained from the internet are inconsistently referenced.	- Offers no strategies; or, strategies are plagiarized; or strategies are inappropriate.
Pedagogical approaches	- Offers varied, practical and contextually appropriate approaches. - Where appropriate, approaches are research-based. - Approaches obtained from the internet are accurately referenced.	- Offers generally practical and appropriate approaches. - Where appropriate, approaches are research-based. - Approaches obtained from the internet are accurately referenced.	- Offers some practical and appropriate approaches. - Where appropriate, approaches are research-based. - Approaches obtained from the internet are inconsistently referenced.	- Offers no approaches; or, approaches are plagiarized; or approaches are inappropriate.
Assessment plan	- Presents assessments that are of appropriate difficulty level to students - Designs assessments that are congruent with unit focus and objectives - Creates clearly worded rubric or scoring guide.	- Presents assessments that are of mostly appropriate difficulty level to students - Designs assessments that are congruent with unit focus and objectives - Creates rubric or scoring guide that needs minor rewording.	- Presents assessments that are of generally appropriate difficulty level to students - Designs assessments that are almost all congruent with unit focus and objectives - Creates rubric or scoring guide that needs some rewording.	- No assessment plan provided; or plan is inadequate, inaccurate, or difficult to apply to the unit. - No rubric or scoring guide presented, or if supplied it is inadequate, inaccurate, or difficult to apply to the unit.

Return to TOC

Features/ Marks	Excellent 8-7	Good 6-5	Adequate 4-3	Poor 2-0
Resources	**Deliberately left blank.**	- Identifies appropriate and varied resources (to include social, cultural, and developmental appropriateness).	- Identifies a few appropriate and varied resources, but these are not necessarily all socially, culturally and developmentally appropriate.	- Does not identify resources, or resources are inappropriate to the purposes of the unit.
Lessons	**Excellent 24-20**	**Good 19-15**	**Adequate 14-10**	**Poor 9-0**
	- Presents coherent lessons in which there is strong congruence between all component parts - Presents all lessons that are appropriate to the unit focus and goals - Presents all lessons that explicitly prepare students for the performance tasks defined in the unit	- Presents coherent lessons in which there is acceptable congruence between all component parts - Presents all lessons that are generally appropriate to the unit focus and goals - Presents most lessons that explicitly prepare students for the performance tasks defined in the unit	- Presents generally coherent lessons in which there is acceptable congruence between all component parts - Presents most lessons that are appropriate to the unit focus and goals - Presents some lessons that explicitly prepare students for the performance tasks defined in the unit	- Has a poorly sequenced outline/no outline of lessons.

Return to TOC

Features/ Marks	Excellent 8-7	Good 6-5	Adequate 4-3	Poor 2-0
Reflection	- Shows keen awareness of how the process of designing the unit has benefitted him/her - Offers insightful self-critique of how he/she may have taught or conceptualized the topic before.	- Shows awareness of how the process of designing the unit has benefitted him/her - Offers self-critique of how he/she may have taught or conceptualized the topic before, but it lacks analysis and insightfulness.	- Shows little awareness of how the process of designing the unit has benefitted him/her - Offers basic self-critique of how he/she may have taught or conceptualized the topic before.	- No reflection offered, or reflection is cursory and reveals nothing about the teacher's engagement with the process, or reflection is just a statement that offers no insights or self critique.
Overall Coherence	**Excellent 16-14**	**Good 13-11**	**Adequate 10-8**	**Poor 7-0**
	The unit: - Has extremely high congruence between unit components. That is, all components support the unit focus and unit objectives.	The unit: - Has moderate congruence between unit components. That is, almost all components support the unit focus and unit objectives.	The unit: - Has some congruence between unit components. That is, most components support the unit focus and unit objectives.	The unit: - Shows low congruence/poor congruence between unit components. Virtually no congruence between unit focus and unit objectives and the rest of the unit.
Allocated section total = 52 marks **Actual Aggregated section total =112 marks** **Multiply aggregated section total obtained by 0.4643 to obtain earned mark out of 52 marks.**
